Before a Flood — Make a Plan

Where it can rain, it can flood!

Know Your Terms

If you are in your car

Remember! Turn Around Don't Drown!

Just six inches of water will reach the bottom of most cars, causing loss of control & possible stalling.

Avoid areas already flooded.

A foot of water will float many vehicles

Roadbeds may be washed out under flood waters and just two feet of moving water can sweep an SUV off the road.

If you are in your home

Listen to the radio, television, or your Weather Radio for information.

If you are ordered to evacuate, leave your home!

- If there is any possibility of a flash flood, move immediately to higher ground. Do not wait for instructions to move.
- Secure your home. If you have time, bring in outdoor furniture. Move essential items to an upper floor.
- Turn off utilities at the main switches or valves if instructed to do so. Disconnect electrical appliances. Do not touch electrical equipment if you are wet or standing in water.
